General Election & Attitudes Towards Brexit Opinion Poll

April 2019
Methodology and Weighting

/ RED C interviewed a random sample of 1000 adults aged 18+ by telephone between the 11th - 17th April 2019.

/ A random digit dial (RDD) method is used to ensure a random selection process of households to be included – this also ensures that ex-directory households are covered.

/ Half of the sample are interviewed using an RDD landline sample, with the other half conducted using an RDD mobile phone sample, this ensures 98% coverage of the population reaching landline only households, mobile only households and those with both a landline and a mobile.

/ Interviews were conducted across the country and the results weighted to the profile of all adults. A further past vote weighting is included that takes the recall for how people voted at the last election, compares this to the actual results and weights the data between the two.

/ Vote intention results are weighted based on turnout, including both how likely each respondent is to actually go and vote on a 10 point scale, where 1 is not at all likely and 10 is very likely, as well as whether or not they voted in the last general election.

/ In all respects the poll was completed to the opinion polling guidelines set out by both ESOMAR and AIMRO.
General Election
First Preference Vote Intention – 21st April 2019
If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)
(Base: All adults 18+ who will vote)

- Fine Gael: 33% (+2)

Local and European Elections
Likelihood to Vote In Local Elections

Firstly, can you tell me how likely you would be to vote in the local elections in May using a ten point scale where one means you think you will definitely not vote, and 10 means you will be absolutely certain to vote.

(Base: All Irish Voters; n=1000)
Likelihood to Vote in European Elections

Firstly, can you tell me how likely you would be to vote in the European elections in May using a ten point scale where one means you think you will definitely not vote, and 10 means you will be absolutely certain to vote.

(Base: All Irish Voters; n=1000)
