

## Opinion Poll Report October 2020

## Methodology and Weighting

- RED C interviewed a random sample of 1000 adults aged 18+ online between Thursday 15<sup>th</sup> and Wednesday 21<sup>st</sup> October
- A online approach was used, among our bespoke online panel RED C Live.
- Interviews are conducted across the country and the results weighted to the profile of all adults.
- Panellists were chosen at random to complete the poll, with quotas set and weights allocated on age, gender, class, region, education level & working status to ensure a nationally representative sample.
- A further past vote quota and weight is included that looks at how people on our panel voted at the last election (gathered at the time) and controls this to ensure it matches the actual results.
- In all respects the poll was completed to the opinion polling guidelines set out by both ESOMAR and AIMRO.

## REDCLIVE

Sample is drawn by RED C's own online panel, RED C Live, that consists of **over 40,000 participants**, recruited from online and offline means.

RED C are proud to have such a high quality resource in the market place

- ✓ Unlike most generic panels, our panellist are given **fair reward** for their time helping to ensure the highest levels of engagement and quality of response across our surveys.
- ✓ The RED C Live panel is fully owned by RED C. This ensures that panel members are not over-interviewed, enabling us to provide the highest quality standards to our clients.
- ✓ RED C uses a number of quota controls outside of age, gender and class, to ensure accuracy – including past vote behaviour, working status, & education.

## The highest online research quality standards in the industry

#### Pre-Screening

All respondents are pre-screened and invited to take part in the survey based on the information held on them in the panel.

#### Invites

Panelists are recruited for surveys a maximum of 3 times per month for ad hoc projects and once every 3 months for tracker surveys.

#### Fair Reward

We pay respondents €1 for every 5 minutes of survey completion, much higher than the market rate

#### Logic Traps

We have inbuilt logic questions and failures at these questions are rejected.

#### Time Delays

All surveys have in-built time delays from the appearance of questions to the presentation of response options.

#### The move to online polling

Testing during Election 2020 shows accuracy

RED C were delighted with the accuracy of our polling for the Business Post at the recent General Election 2020. The accuracy of our polls underlines the quality of our offering.

During the campaign we conducted 4 polls in total, two that were run on our telephone omnibus and published in the Business Post on the 26<sup>th</sup> January and the 2<sup>nd</sup> February, while we also conducted two further polls online using our RED Line omnibus service.

The online polls were run in order to for us to test how accurately we could predict the result of the Election using an online approach, which is very commonly used in other countries such as the UK.

The results of these online polling tests were also highly successful, with an average error of 0.80%, at a similar level to the exit poll which had 5000 interviews conducted on the day.

These results back up the quality credentials both of the RED C Live online panel generally, and also of the RED C sampling and quality control team tasked with ensuring we reach a representative sample through that panel.

It has proved that we can, with our expert knowledge of the political landscape in Ireland and our strict quality controls, utilise a more cost effective and flexible online approach for polling moving forward.

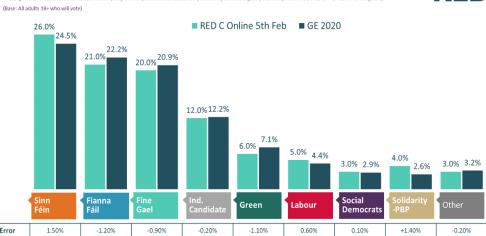

Based on the success of these tests we have moved our regular tracking polls to a more cost effective online approach each month to measure trends in voters support for parties, with possible supplementary telephone polls where required.

#### Final Online Poll Test During GE 2020

#### First Preference Vote Intention - RED C 5th Feb vs. Result

Average Error 0.80%

#### Where has the Fianna Fáil vote gone?

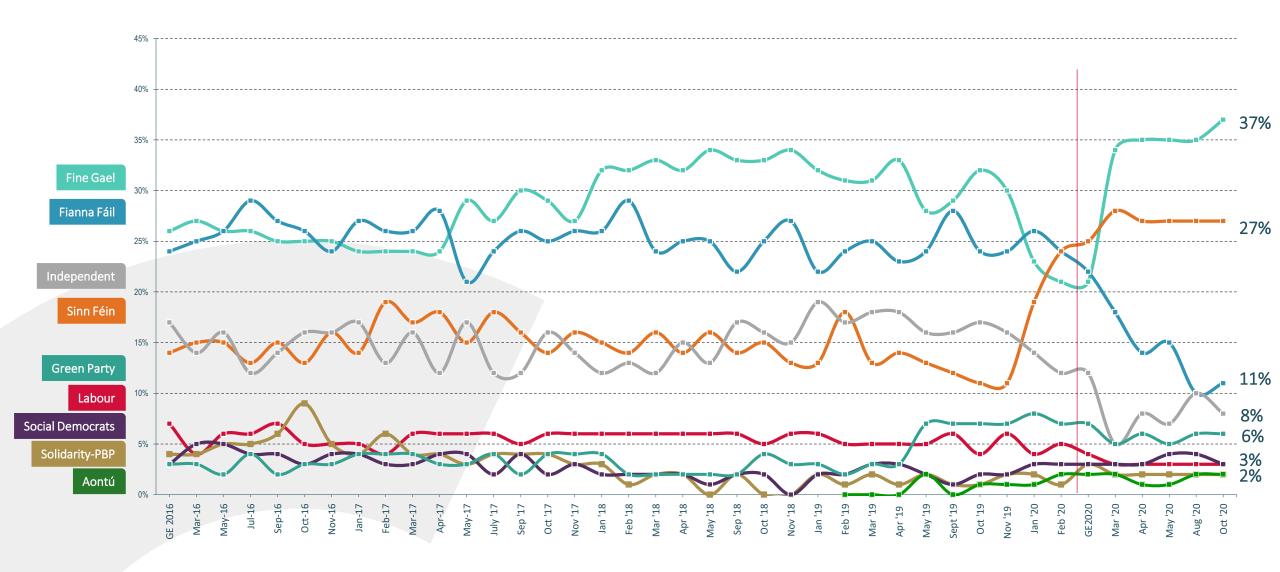

C

Distribution of 1<sup>st</sup> Preference Votes of Those who Voted for Fianna Fáil in Feb 2020 suggests most have moved to FG or are now undecided how they would vote

## First preference vote intention – since GE 2016

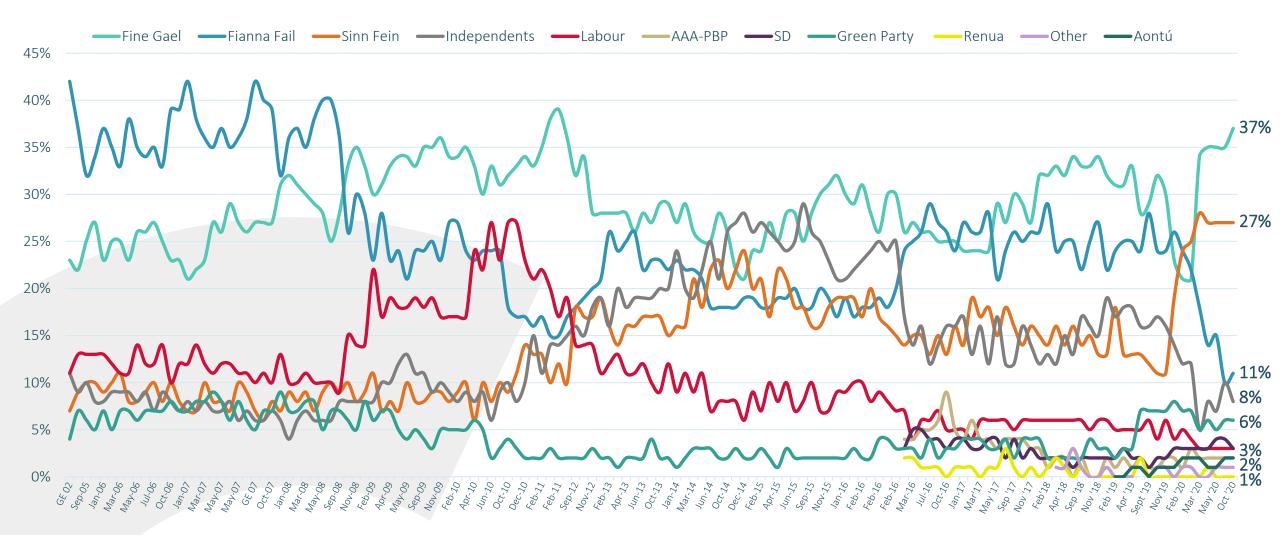

Q. If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)

(Base: All adults 18+ who will vote)

#### First preference vote intention – 2005 to 2020

Note; From GE 2016 Onwards, 'Independents/Others' split out to show Solidarity-PBP, Social Democrats, Aontu, Renua separately

Q. If the general election was tomorrow which party or independent candidate do you think you would give your first preference vote to? (Past vote weighted)

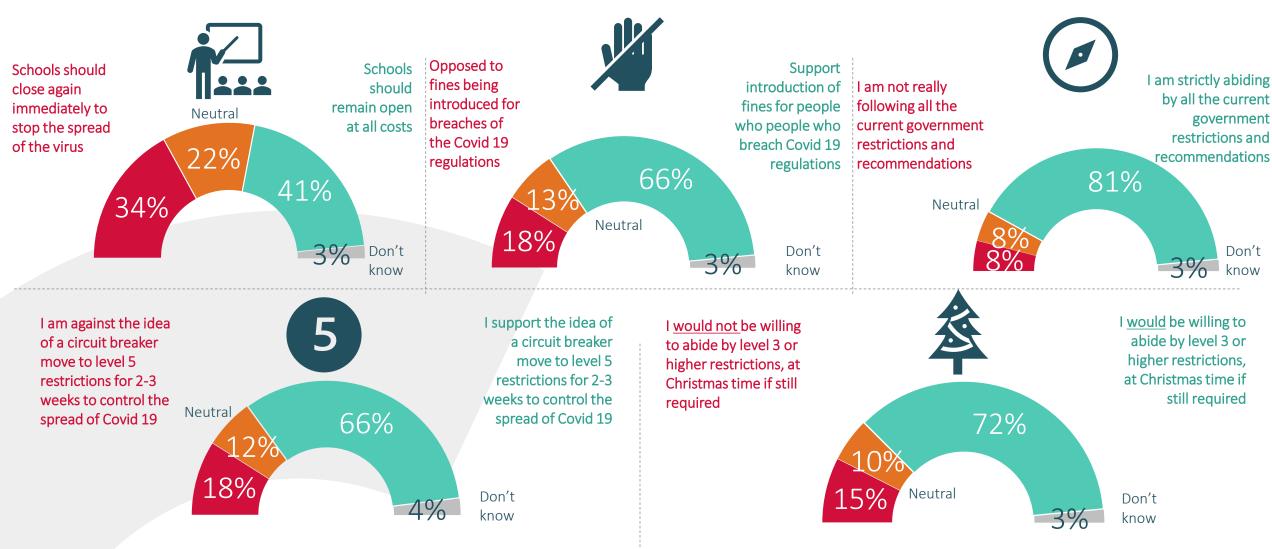

(Base: All adults 18+ who will vote)

Voter Attitudes

#### **Voter Attitudes Towards COVID-19 & Lockdown Measures**

Measured on a 5 point scale.

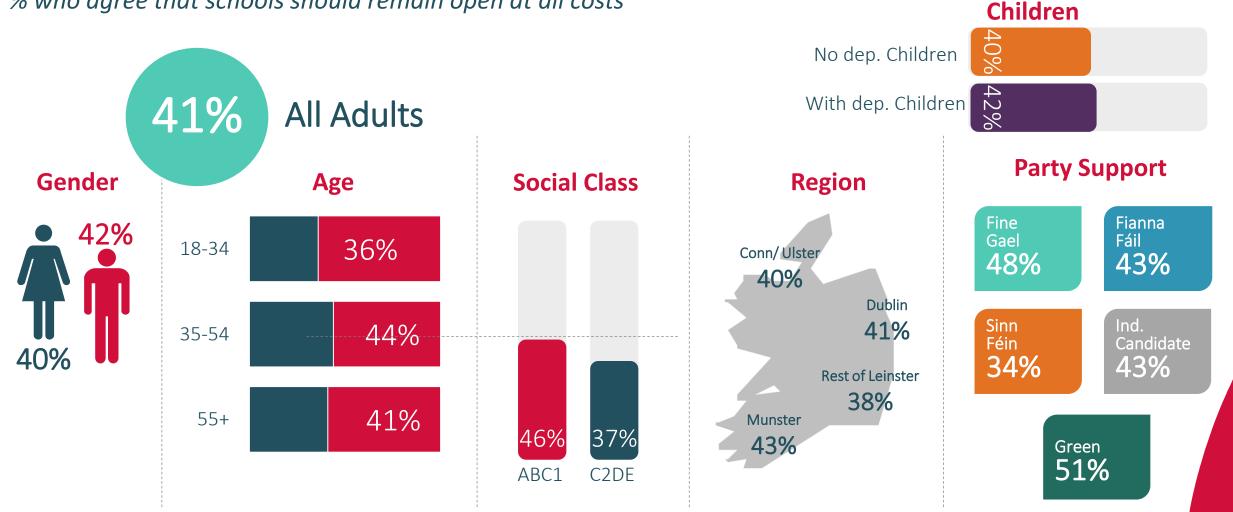

(Base: All adults 18+ who will vote)

## **Should Schools remain open during COVID Restrictions?**

% who agree that schools should remain open at all costs

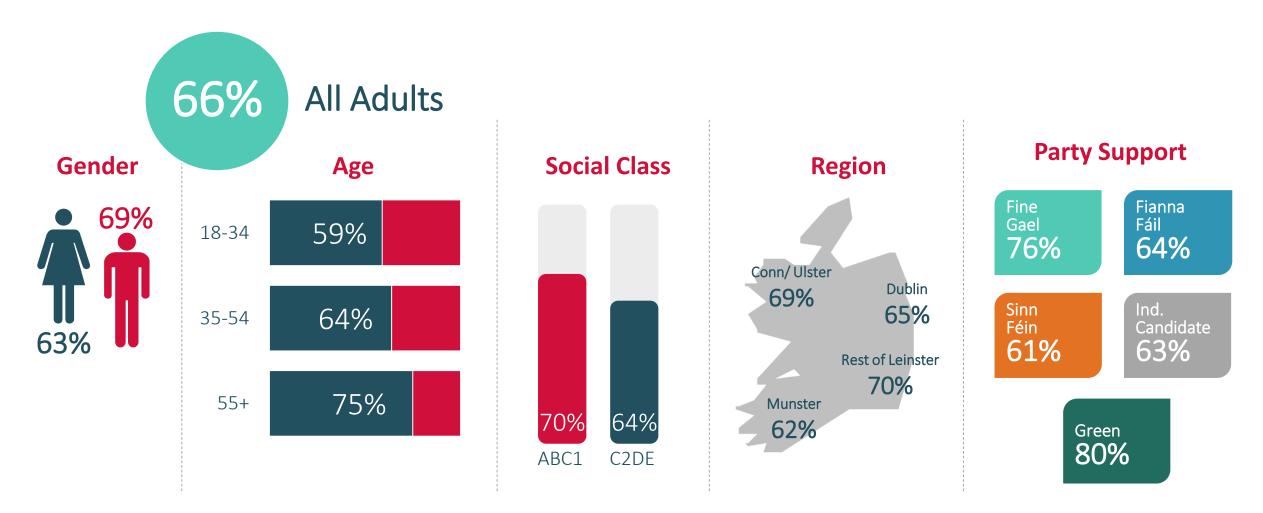

(Base: All adults 18+ who will vote)

#### Should fines be introduced for those in breach of regulation?

% who support the introduction of fines for people who people who breach Covid 19 regulations

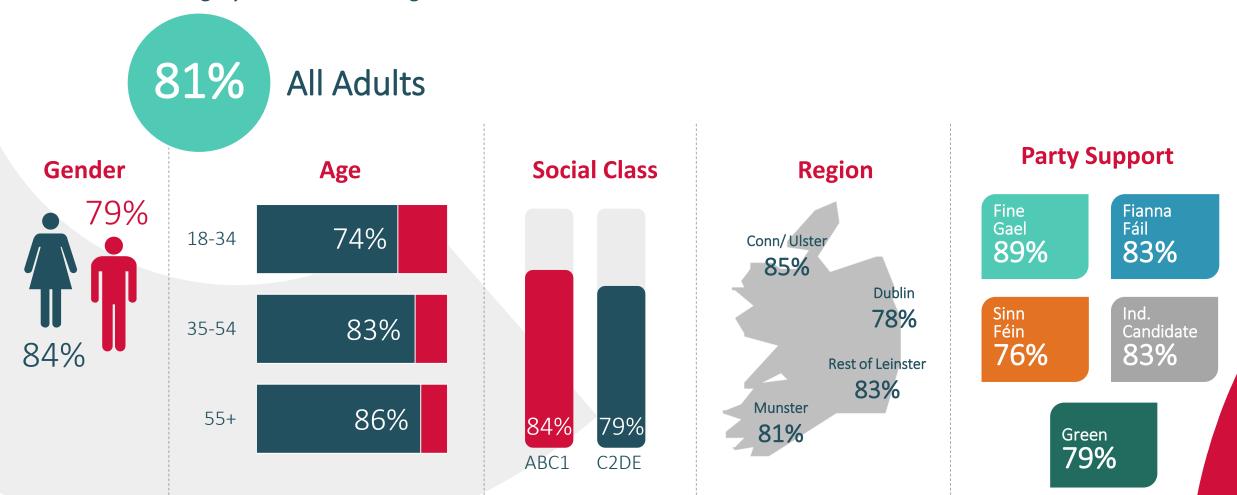

(Base: All adults 18+ who will vote)

#### Who is following current government restrictions?

% that are abiding by all the current government restrictions and recommendations

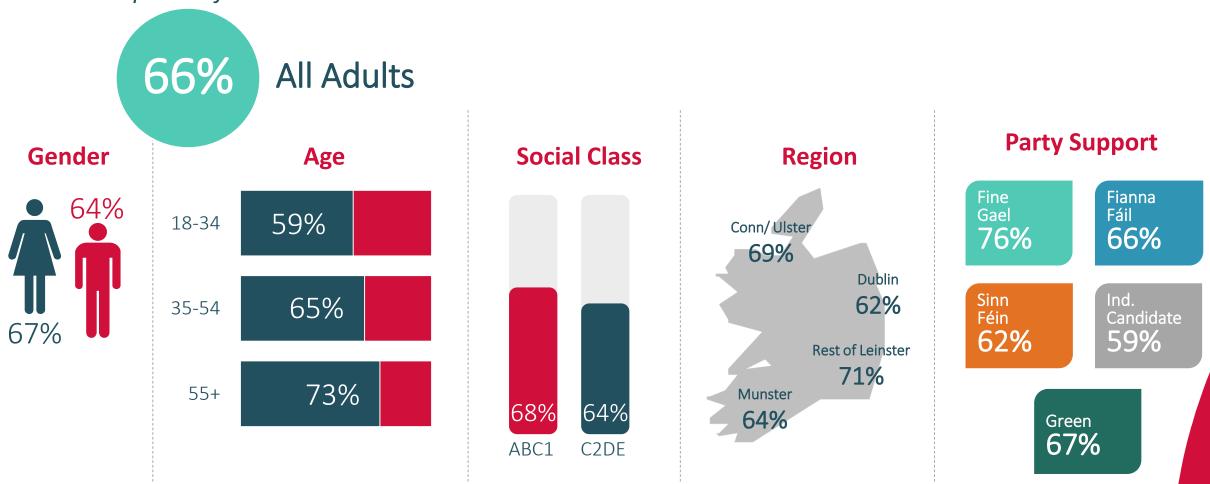

(Base: All adults 18+ who will vote)

## Support for a Level 5 lockdown (2-3 Weeks)

% that fully support the idea of a circuit breaker move to level 5 restrictions for 2-3 weeks to control the spread of COVID-9

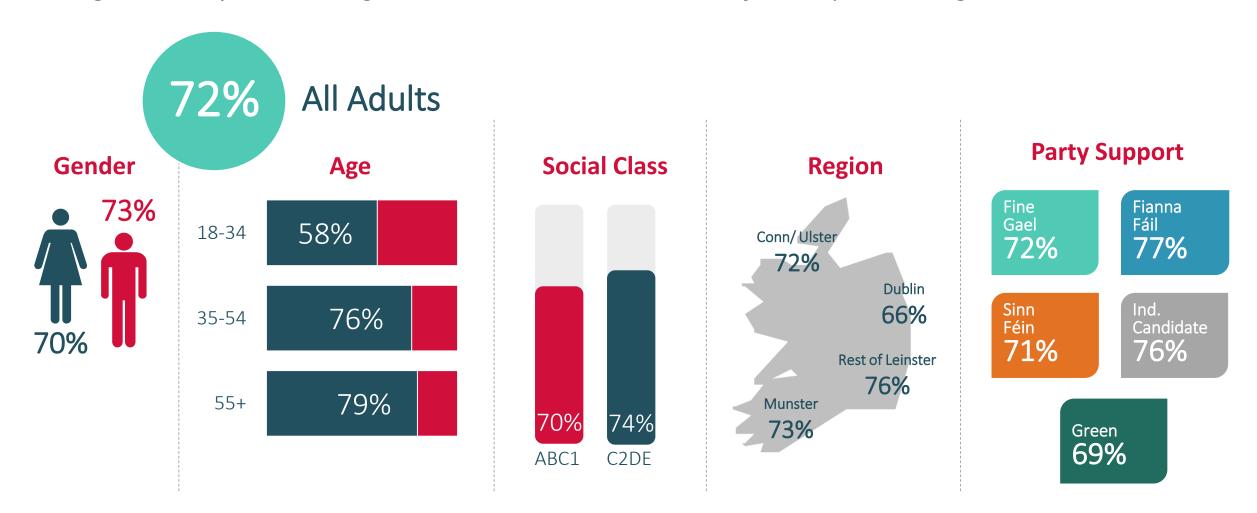

(Base: All adults 18+ who will vote)

## Willingness to abide by level 3 restrictions or higher at Christmas

% willing to abide by level 3 or higher restrictions at Christmas time if still required - % Agree

(Base: All adults 18+ who will vote)

## About RED C

## Who are we?

With offices in **Dublin**, **Dundalk** and **London** RED C are one of Ireland and the UK's premier providers of research-based consultancy services.

Founded in Dublin in 2003, we have been providing high quality research based consultancy services to both blue chip and up and coming businesses both nationally and internationally for many years.

Now 50 highly experienced and skilled staff, look after the insight needs of companies worldwide.

## Helping you **See More Clearly,** by better understanding business opportunities, plus growth, retention and change strategies

#### C

#### We deliver

## CLARITY

to business by truly understanding how humans behave, feel and act

#### Opportunity

Understanding people, behaviour, markets, society and technology in order to uncover opportunities.

#### Growth

Uncovering choices, preferences and decisions that enable business to design brands, products and services that beat the competition.

#### Retention

Mapping and delivering easy and enjoyable customer journey's and experiences to maximize purchase and retention.

#### Change

Accelerating how products and services are adopted and marketed.

Underpinned by understanding of real human behaviour, and using a set of specially designed products

\*\*\*

**RED Star** 

Conducted in over 30 markets across the world in the past year
